Cosmetics and Perfumery

Index of Volume 88 **January-December, 1973**

Published by Allured Publishing Company
1031 South Boulevard, Oak Park, Illinois 60302, U.S.A.

A

Abstracts of papers, AMA Conference on Hair Growth, June, p. 108
Abstracts of papers, Annual Scientific Meeting, Society of Cosmetic Chemists, February, p. 54
Abstracts of papers, 1973 Seminar, Society of Cosmetic Chemists, June, p. 98
Acceptability of color matches and practical application, Color control in make-up production—Seiji Kato, et al., September, p. 49.
Aerosol antiperspirant formulations, Effect of cosmetic oils on—Hazel M. Lee, et al., May, p. 35
After-bath emollients—James J. Slack, March, p. 85
After-bath powders—Mitchell L. Schlossman, March, p. 103
Aliphatic esters with polystyrene, Study of the compatibility of various—Mark Havass, et al., May, p. 29
Aminimides (Materials Report)—W. R. Markland, December, p. 22
Analytical procedures for lanolin and lanolin derivatives—Clarence W. Spilker, et al., September, p. 43
An approach to fitting a perfume to the polarity of its substrate—Harry C. Saunders, November, p. 31
An innovation, Translucent soap—John W. Barnhart, Jr., March, p. 105
An inventor's right to his invention—Morton S. Simon, November, p. 43
Antibacterial effectiveness of stored sorbic acid solutions—T. J. McCarthy, et al., May, p. 43
Antimicrobial interaction in cosmetics, Methods available for studying—D. Coates, et al., April, p. 43
Antimicrobial properties of bay and other phenolic essential oils—Noemi G. Martinez Nadal, et al., October, p. 37
Application of the extract of Lithospermi radix in cosmetics—Takashi Abe, et al., January, p. 51
Applicators?, Fingers or (Letters to Editor)—Stanley E. Allured, November, p. 53
Appraisal of commercially used water-soluble placenta preparations by investigating their enzyme activities and patterns—V. Heitland, January, p. 43
Artificial tanning, Theory and practice of—a literature and patent survey—E. Futterer, August, p. 31

B

Bath and bath products as moisturizers—Bernard Idson, March, p. 43
Bath and body lotions—their function and general composition—Richard R. Egan, March, p. 45
Bath oils—Dr. F. Siegel, et al., March, p. 81
Bath oils, Monomolecular film—Donald L. Courtney, March, p. 55
Bath preparations, Herbal—Henry Goldschmiedt, March, p. 89
Bath salts—W. R. Markland, March, p. 99
Bath satins—L. S. David, March, p. 51
Bay and other phenolic essential oils, Antimicrobial properties of—Noemi G. Martinez Nadal, et al., October, p. 37
Black people, Cosmetics for—Mrs. Rosemarie Wallisch, June, p. 59
Blind testers in the food and fragrance industries—Mrs. Elisabeth Freund, et al., June, p. 39
Bubble bath fragrances—Joseph Paul Parentini, March, p. 61
Bubble bath preparations, Evaluation of the foaming power of—Dr. D. Stephan, March, p. 95

C

Chemical aspects of jojoba oil, a unique liquid wax from the desert shrub, *Simmondsia californica*—Thomas K. Miwa, January, p. 39
Citrus seed oil—J. W. Kesterson, et al., October, p. 39
Color control in make-up production, acceptability of color matches and practical application—Seiji Kato, et al., September, p. 49
Color, Odor versus—Danute Pajaujis Anonis, May, p. 39
Compatibility of various aliphatic esters with polystyrene, Study of the—Mark Havass, et al., May, p. 29
Composition of soil from worn undershirts before and after washing—K. L. Heinz, et al., February, p. 41
Condition of infant skin and its care—Dr. Marianne Schmidt-Ehrensberger, December, p. 43
Consumerism—A positive approach—Doreen L. Wedderburn, September, p. 65
Cosmetic and toiletry preparations, Use of natural products in—Philip Alexander, September, p. 35
Cosmetic and toiletry products, Effect of formulation upon deposition from—B. Burgess, October, p. 49
Cosmetic color regulations, International survey of—Goswin van Ham, December, p. 37
Cosmetic industry response to consumer needs—Mrs. Virginia Knauer, June, p. 49
Cosmetic materials, Natural—Stanley E. Allured, January, p. 54
Cosmetic oils on aerosol antiperspirant formulations, Effect of—Hazel M. Lee, et al., May, p. 35
Cosmetic products, Potential value of egg oil in—Daniel Melnick, January, p. 31

Cosmetics and nonsterile drugs, Microbial content of—Saul Tenenbaum, February, p. 49
Cosmetics and toiletries, Microbial contamination of—G. E. Myers, et al., July, p. 37
Cosmetics, Application of the extract of Lithospermi radix in—Takashi Abe, et al., January, p. 51
Cosmetics for black people—Mrs. Rosemarie Wallisch, June, p. 59
Cosmetics, Hypoallergenic—Mrs. Rosemarie Wallisch, June, p. 89
Cosmetics, Methods available for studying antimicrobial interaction in—D. Coates, et al., April, p. 43
Cosmetics, Polyacrylamides in—Harry Isacoff, February, p. 35
Cosmetics, Rheological properties of lipophilic bases applied to—Prof. Dr. A. Rutkowski, et al., July, p. 23
Creams and emulsions, a dissolution method, Preservative release from—T. J. McCarthy, September, p. 61
Creativity and the mass market—Francois Petitpierre, June, p. 52
CTFA Scientific Conference, 1973—December, p. 31
Current status of sugar substitutes—Norman R. Farnsworth, July, p. 27

D

Deodorant soaps—Warren R. Schubert, March, p. 69
Deposition from cosmetic and toiletry products, Effect of formulation upon—B. Burgess, October, p. 49
Desiderata's 40th anniversary—M. G. deNavarre, March, p. 21
Dissolution method, Preservative release from creams and emulsions—T. J. McCarthy, September, p. 61
Dry bubble baths—Andrew Schultz, March, p. 63
Dusting powder for use in eczema and sweating problems, Standardization of a—Dr. N. Harb, October, p. 59

E

Effect of cosmetic oils on aerosol antiperspirant formulations—Hazel M. Lee, et al., May, p. 35
Effect of formulation upon deposition from cosmetic and toiletry products—B. Burgess, October, p. 49
Egg oil in cosmetic products, Potential value of—Daniel Melnick, January, p. 31
Emollients, After-bath—James J. Slack, March, p. 85
Enzyme activities and patterns, Appraisal of commercially used water-soluble placenta preparations by investigating their—V. Heitland, January, p. 43
Essential oils of South America—Stephen Manheimer, June, p. 41
European bath products, New—J. M. Bromley, March, p. 87
Evaluation of the foaming power of bubble bath preparations—Dr. D. Stephan, March, p. 95
Eye cosmetics by examination of both applicator and product, Some comments on the microbial profile of used automatic—David W. Anderson, Jr., et al., August, p. 29
Eye cosmetics by examination of product only, Microbiological profile of used—David W. Anderson, Jr., et al., August, p. 25

F

FDA regulations of the cosmetic industry, How automated analysis can meet the testing standards of proposed—Jerome Salpeter, October, p. 63
Fingers or applicators? (Letters to Editor)—Stanley E. Allured, November, p. 53
Foaming power of bubble bath preparations, Evaluation of the—Dr. D. Stephan, March, p. 95
Fragrance breakthroughs, Preparing for—J. Stephan Jellinek, June, p. 56
Fragrance in sanitary papers and the industry, Use of—Morris L. Smith, August, p. 43
Fundamental concepts of preservation—John I. Yablonski, August, p. 39

H

Hair products, New concepts in—Mel Hoyt, April, p. 53
Herbal bath preparations—Henry Goldschmiedt, March, p. 89
Hormones and hair growth—F. John Ebling, October, p. 41
How automated analysis can meet the testing standards of proposed FDA regulations of the cosmetic industry—Jerome Salpeter, October, p. 63
Human hair strands, Penetration of protein hydrolysates into—Elaine S. Cooperman, et al., July, p. 19
Hypoallergenic cosmetics—Mrs. Rosemarie Wallisch, June, p. 89

I

Infant skin and its care, Condition of—Dr. Marianne Schmidt-Ehrensberger, December, p. 43
International survey of cosmetic color regulations—Goswin van Ham, December, p. 37
Inventor's right to his invention, An—Morton S. Simon, November, p. 43

J

Jasmin research, Recent progress in—Ernest H. Polak, June, p. 46
Jojoba oil, a unique liquid wax from the desert shrub, *Simmondsia californica*, Chemical aspects of—Thomas K. Miwa, January, p. 39
Jovan, the Chicago fragrance house, Seascape—December, p. 20

L

Lanolin and lanolin derivatives, Analytical procedures for—Clarence W. Spilker, et al., September, p. 43
Lipophilic bases applied to cosmetics, Rheological properties of—Prof. Dr. A. Rutkowski, et al., July, p. 23
Liquid bubble bath—multipurpose health and beauty care—Robert P. Brandau, et al., March, p. 77
Liquid wax from the desert shrub, *Simmondsia californica*, Chemical aspects of jojoba oil, a unique—Thomas K. Miwa, January, p. 39
Lithospermi radix in cosmetics, Application of the extract of—Takashi Abe, et al., January, p. 51
Lotions—their function and general composition, Bath and body—Richard R. Egan, March, p. 45

M

Macrocyclic musk compounds, Recent advances in the development of—Syozo Abe, et al., June, p. 67
Make-up, Present and future trends in—T. J. Elliott, November, p. 35
Make-up production, acceptability of color matches and practical application, Color control in—Seiji Kato, et al., September, p. 49
(Materials Report), Aminimides—W. R. Markland, December, p. 22
Methods available for studying antimicrobial interaction in cosmetics—D. Coates, et al., April, p. 43
Microbial contamination of cosmetics and toiletries—

G. E. Myers, et al., July, p. 37
Microbial content of cosmetics and nonsterile drugs—Saul Tenenbaum, February, p. 49
Microbial profile of used automatic eye cosmetics by examination of both applicator and product, Some comments on the—David W. Anderson, Jr., et al., August, p. 29
Microbiological profile of used eye cosmetics by examination of product only—David W. Anderson, Jr., et al., August, p. 25
Microbiological tests used in a quality control program—C. L. Goldman, February, p. 39
Moisturizers, Bath and bath products as—Bernard Idson, March, p. 43
Monomolecular film bath oils—Donald L. Courtney, March, p. 55
Multipurpose health and beauty care, Liquid bubble bath—Robert P. Brandau, et al., March, p. 77

N

Natural cosmetic materials—Stanley E. Allured, January, p. 54
Natural products in cosmetic and toiletry preparations, Use of—Philip Alexander, September, p. 35
New concepts in hair products—Mel Hoyt, April, p. 53
New European bath products—J. M. Bromley, March, p. 87
New regulations affecting cosmetics (CTFA Scientific Conference, 1973)—December, p. 31
Nonsterile drugs, Microbial content of cosmetics and—Saul Tenenbaum, February, p. 49

O

Odor versus color—Danute Pajaujis Anonis, May, p. 39
Oily hair problems, Specialty starch products can help solve—Frank Nowak, February, p. 31

P

Penetration of protein hydrolysates into human hair strands—Elaine S. Cooperman, et al., July, p. 19
Performance of dialkyl suphate-lauric monoethanolamine-PVP/VA shampoo in the presence of superfatting materials—A. A. Kassem, et al., August, p. 35
Perfume to the polarity of its substrate, An approach to fitting a—Harry C. Saunders, November, p. 31
Phenolic essential oils, Antimicrobial properties of bay and other—Noemi G. Martinez Nadal, et al., October, p. 37
Placenta preparations by investigating their enzyme activities and patterns, Appraisal of commercially used water-soluble—V. Heitland, January, p. 43
Polyacrylamides in cosmetics—Harry Isacoff, February, p. 35
Potential value of egg oil in cosmetic products—Daniel Melnick, January, p. 31
Powders, After-bath—Mitchell L. Schlossman, March, p. 103
Preparing for fragrance breakthroughs—J. Stephan Jellinek, June, p. 56
Present and future trends in make-up—T. J. Elliott, November, p. 35
Preservation, Fundamental concepts of—John I. Yablonski, August, p. 39
Preservative release from creams and emulsions, a dissolution method—T. J. McCarthy, September, p. 61
Preservative solutions in commonly used plastic containers, Storage studies of—T. J. McCarthy, November, p. 41
Proceedings of the 19th Annual Symposium, The American Society of Perfumers, June, p. 39
Progress in perfumery materials—Paul Bedoukian, April, p. 31
Proposed FDA regulations of the cosmetic industry, How automated analysis can meet the testing standards of—Jerome Salpeter, October, p. 63

Q

Quality control program, Microbiological tests used in a—C. L. Goldman, February, p. 39

R

Recent advances in the development of macrocyclic musk compounds—Syozo Abe, et al., June, p. 67
Recent progress in jasmin research—Ernest H. Polak, June, p. 46
Report on the VIth International Congress on Surface Chemistry—Paul Becher, March, p. 107
Rheological properties of lipophilic bases applied to cosmetics—Prof. Dr. A. Rutkowski, et al., July, p. 23

S

Sanitary papers and the industry, Use of fragrance in—Morris L. Smith, August, p. 43
Salts, Bath—W. R. Markland, March, p. 99
Satins, Bath—L. S. David, March, p. 51
Seascape—Jovan, the Chicago fragrance house, December, p. 20
Shampoo in the presence of superfatting materials, Performance of dialkyl sulphate-lauric monoethanolamine-PVP/VA—A. A. Kassem, et al., August, p. 35
VIth International Congress on Surface Chemistry, Report on—Paul Becher, March, p. 107
Soil of worn undershirts before and after washing, Composition of—K. L. Heinz, et al., February, p. 41
Some comments on the microbial profile of used automatic eye cosmetics by examination of both applicator and product—David W. Anderson, Jr., et al., August, p. 29
Sorbic acid solutions, Antibacterial effectiveness of stored—T. J. McCarthy, et al., May, p. 43
Specialty starch products can help solve oily hair problems—Frank Nowak, February, p. 31
Standardization of a dusting powder for use in eczema and sweating problems—Dr. N. Harb, October, p. 59
Storage studies of preservative solutions in commonly used plastic containers—T. J. McCarthy, November, p. 41
Study of the compatibility of various aliphatic esters with polystyrene—Mark Havass, et al., May, p. 29
Sugar substitutes, Current status of—Norman R. Farnsworth, July, p. 27

T

Technical people in the marketing world—Mark Havass, October, p. 47
Theory and practice of artificial tanning—a literature and patent survey—E. Futterer, August, p. 31
Translucent soap, An innovation—John W. Barnhart, Jr., March, p. 105

U

Use of fragrance in sanitary papers and the industry—Morris L. Smith, August, p. 43
Use of natural products in cosmetic and toiletry preparations—Philip Alexander, September, p. 35
